

CALL FOR WORKSHOP PROPOSALS

“ We invite you to submit proposals for workshops to be held in conjunction with the ACS/IEEE 23rd International Conference on Computer Systems and Applications (AICCSA 2026).

As the premier conference covering all contemporary areas in computer systems and applications, AICCSA 2026 provides an international forum for academics, industry researchers, developers, and practitioners to report on and share groundbreaking contributions in various IT fields, ranging from distributed computing to data science, security, and machine learning.

AICCSA 2026 will be held at the University of Sharjah, Sharjah, UAE, from 26 to 29 October 2026.

Submission guidelines

Workshop proposals must be submitted via the conference main submission link [Here](#) by selecting "Workshop Proposals".

Proposals for workshops may address one or more Tracks, but they should be organised under a unified theme.

Proposals for workshops are intended to allow projects or any other group of authors to present their own work.

Proposals for workshops may include invited speakers, papers, and panels.

Workshop papers can be either Presentations, Extended Abstracts (2 pages) or Full Papers (5 pages), and should be reviewed by the Workshop Technical Programme Committee.

Proposals for workshops should be no more than 2 pages in length and submitted in PDF Format.

Proposals should contain the following information:

- Title and brief description of the workshop, specifying the goals and the technical issues that will be addressed in the workshop.
- A brief description of why and to whom the workshop is of interest and how it complements the main conference.
- The proposed organizing committee and the technical program committee.
- The workshop submission and processing system.
- Contact details of the main organizers.

Notes for the Workshop Organizers

Workshop Organizers will be responsible for the following:

- Proposing a "Call for Papers/Participation" for their workshop. It should mention that at least one author of each accepted submission should attend the workshop and that the registration of at least one author is required for the paper to be included in the conference proceedings.
- Ensuring that the page limit of all workshop papers is 6 pages (in IEEE format).
- Taking full responsibility for workshop submission, the reviewing process, and decisions.
- Selecting the participants and the format of the workshop.
- Advertising the workshop beyond the conference web page.
- Providing support to create a finalized (camera-ready) version suitable for publication of the workshop proceedings.

- In case of an insufficient number of submissions, the AICCSA 2026 organizing committee may propose to merge the workshop with another. In extreme situations, we may also cancel workshops if there are insufficient number of submissions, while we may consider the paper for the main tracks.
- Ensuring that the accepted papers are of high quality. All papers must be reviewed by an international technical Program Committee with a minimum of 2 reviews per paper.

The AICCSA 2026 Organizing Committee will be responsible for the following:

- Providing a link to the workshop's web page.
- Providing logistics support for the workshop.
- In conjunction with the workshop's organizers, determining the workshop date and time.
- Including the workshop-accepted papers in the main proceedings and submitting them to IEEE and IEEE Xplore for indexing and publication.

Workshop organizers benefit from one free registration for each 6 fully registered papers in their workshop.

Important Dates

Workshop proposals due: 12 April, 2026

Notification of acceptance: 17 April 2026

Workshop paper submission deadline: 05 July 2026

Workshop paper notification deadline: 08 August, 2026

Authors' registration deadline: 05 September 2026

Workshop Chairs

Ayad Turkey, University of Sharjah, UAE

Abir Hussain, University of Sharjah, UAE
